From the President & Board of Directors

Welcome to the Summer of 2018! So far this year, the local weather has offered something for everyone. Now, as this newsletter is going to print, we are in for a super warm spell, so being at the lake is the best place to be - - for sure!

We mentioned in the Spring Newsletter that this year is all about raising funds for the 90 year old Caneadea Dam. The responses for the Anniversary Gala are encouraging, corporate sponsorships are generous and, because we reached out to many new businesses, we have happily received excellent participation.

What we need from each of you is to finalize selling your books of **Raffle Tickets** and get money turned in. Many tickets have been sold, but there are many, many more still in your hands that could make a huge difference in the money generated from the event. There are wonderful prizes to win, so get out there and make some sales!

It doesn't hurt to remind everyone once again why all of this is so important. Our dam—now 90 years old, is structurally sound, and will continue to provide a lake for us for years to come. However, there are mechanical parts that are worn or wearing

out. These items help the dam operators govern the lake level and protect the dam from damage in both high water events and during winter cold. Not surprisingly, the cost for these pieces and the expense of shipping and installing parts is rather high.

Raising money is a lot of work, but ultimately it keeps our tax assessment lower. As landowners, we are the stakeholders who need to keep everything in operating condition.

District Elections—Saturday, July 28th Noon—8:00 P.M.

Please make sure to get out and vote on District Election Day! All Lake District property owners are eligible to vote, but must register with the Recreation District prior to the election. Voter Registration forms are available at the RLRD office.

At the time of print, Commissioner Bob Panter is the only registered candidate. His biography is posted on the RLLA website for you reference. Should additional candidates register, their bio will be posted as well. [www.rushfordlake.org]
